

March 17, 1976

Island to get this training. The bill provides for regional centers throughout the state. These were some of the sticking points on all of the considerations and arguments we've had. They've been worked out, I can't say to my satisfaction but I think some kind of regulation of these forces is necessary. This bill offers the best thing that I think is available under the circumstances. That's the purpose of the bill. If you have any specific questions I would try to answer them.

SENATOR BARNETT: Thank you. I'd like to continue for just a second with Senator Chambers. You go ahead and visit, we'll just talk....

PRESIDENT: Yes, thank you Senator Barnett.

SENATOR CHAMBERS: Do you want me to keep ... stay here?

SENATOR BARNETT: As far as your football description and everything and when you got to the fat part of the football that you were talking about instead of having this issue blow completely apart the Legislature acted as the laces and brought everything back together then, is that what you're saying?

SENATOR CHAMBERS: Right on, and filled it full of air.

SENATOR BARNETT: Thank you.

PRESIDENT: Senator DeCamp.

SENATOR DeCAMP: Mr. President, just to clarify a little for Senator Barnett, we have basically the same bill as we had before with some refinements to accomodate certain problems. As was mentioned, for example, if you have somebody three or four hundred miles from the training center we make it not necessary to get all the training there. You can have law enforcement officers, a specialist in something put on a course out in Chadron or somewhere, this type of thing. The other thing, the special deputies issue, actually this is basically identical to what we have now. As I say the amendment as it's going back is merely a refinement and an accomodation for additional training at additional sights, this kind of thing. I repeat once again I'm going to take these people at their word who said that they didn't need the special deputies and hope that they're telling the truth, and they don't cry later. That's what's in the amendment, don't want to make any secret of that. They said they didn't use them, they don't need them, let's hope they're telling the truth.

PRESIDENT: Senator Kelly.

SENATOR KELLY: Senator DeCamp, I want a little more detail on this regional training where you're going to do what, where, how, when.
